MANAGEMENT DISCUSSIONS AND ANALYSIS”

Company Approach to the Business

The hospitality industry in India continued to be impacted by the slowdown in the domestic economy and adverse economic environment in the international feeder markets of the US and Europe. While the US market appears to be on the path of slow recovery, the European market is yet to come out of its debt problems and recession. As a result, both international and domestic business segments for the luxury hotels remained muted. In the backdrop of these challenging circumstances, the Hotels business registered a marginal growth in revenues and profits, while maintaining its leadership position in terms of operating margins. The company taking forward its objective to be a market leader has strengthened its base in the fiscal year 2012-2013. This is evident from the fact that Hotel is the first preferred destination for the High end clients visiting Bhopal. The rooms on offer are far more superior to any other existing hotel rooms in the city, and that is evident from the VVIP guests who stayed with us in the past year. Further, the Company's Vision is to emerge as a high end Hotel, offering the top quality products has added two more outlets of Wonder Bread making it a total of three stores offering wide range of bakery and confectionary products at a very nominal price.

The Company values its employees as its key assets. Hence, efforts are made on an ongoing basis to improve the efficiency of the employees by way of training, providing them with better working conditions and keeping them motivated at all times. Employees are provided opportunity to grow and prosper. The authority and responsibility chain is clearly defined and the employees are free to convey their ideas and suggestions to their superiors. Team meetings are held at frequent intervals to improve communication and interactions between the employees.

Quality Management

Noor-Us-Sabah Palace, A WelcomHeritage Legend Hotel is the flagship property of WelcomHeritage Group of Hotels, and strict quality parameters have been laid and practiced to adhere to the Brand values, which results in quality service to customers and higher satisfaction level.

Completing the set target for upgradation of rooms, hotel has earmarked this year for the upgradation of Food and Beverage (F&B) Outlets. The various initiatives listed include, standardization of recipes, and focus on best quality food at a reasonable pricing. Banqueting has been a major foray for Noor-Us-Sabah palace and has been a preferred destination for all high end weddings and conference happening in the town.

Systems and checks as set by the management from time to time are already in place to ensure that right from planning stage to procurement stage to production stage to service stage to accounting stage, quality is maintained at all levels. Standard Operating Procedures (SOP's) are being followed at all operational levels for implementation & for strict adherence which would be constantly reviewed to adapt to the changing service trends of hotel industry. The major initiative in Environmental practices has been initiated by the management, and some of the steps include Ban of Polyphone bags, Conversion to LED lamps, Water conservation at all levels, Massive Tree plantation, Garbage Disposal Management etc.

Internal Control Systems:

All necessary controls, financial checks and otherwise as per statutory requirements as also towards making the company a highly profitable venture are in place. Internal controls as regards operations aimed at ensuring that the expenditure is in line with industry norms. Proper accounting procedures are being strictly adhered to. Total transparency in all transactions is maintained and all statutory licensing and dues to the State and central Government have been updated & are made on time. Reduction in cost will be a major focus area for next FY which will further aid in increasing profit margins and end up in a Healthy Operating Ratio.

Opportunities

Economic projections appear to indicate towards a Major Boom for the Hospitality Industry for the coming season. The Corporate and Conference segment along with foreign tourist segment is expected to show a decent growth. The Bhopal Airport is now an International Airport, and this is resulting in increase in number of flights. However, due to lack of International flights at present the actual impact is not felt.

Threats:

Opening of competition Hotel with 100 room inventory, coupled with recession in the economy has put some pressure on the Hotel occupancy as well as food business. Real Estate Developers have started to show interest in Bhopal. With the influx of companies like DLF, Ansals, Omaxe and the likes into the city, land and raw material prices have rapidly shot up. This has resulted in spiraling of projects costs. Current market players in Hospitality Industry in the city also have comprehended the boom in the market and thus have either made additions to their current setup or have made provisions to do the same in the current financial year. This again could make a dent in our market share. With the advent of new players in the market, the competition is growing tougher by the day. Hiring and retaining of skilled and experienced manpower is becoming a challenge in the market today which will only multiply in coming years. With the increased fuel prices, corporate houses these days are focusing on reducing travel and boarding /lodging expenses thereby adversely affecting the hotel's revenue. Some corporate have gone step further and bought/hired/running guesthouses for their travelling executives & their offices in the city generally have a conference room attached to take care of routine and other weekly /monthly conferencing.

Risk and Concerns:

The company is hopeful that the current buoyancy in the market will continue for a few years more and we foresee no potential risk to Hospitality Industry as of now. There is definitely a concern about the state Government not doing enough on infrastructure development so as to ease inflow of tourists and corporate.

Other Disclosures:

The Hotel which has recently been conferred as WelcomHeritage Legend Hotel, shall strive to be the number one Hotel in Group. It shall work towards socio-economic growth, and in order to achieve this very goal shall focus on training the existing manpower in accordance with the customer requirements and perceptions.

Human Resources Development:

Led with the realization of the fact that continuous up-gradation of skills and service delivery systems /inputs go a long way to make a decisive difference in the hotel industry, as a matter of policy, continues to invest in up-gradation of the quality of its human resources and lays emphasis on efforts to tune up skills of and service delivery by its existing manpower and keep them sponsoring for external training and skill development programmes at selected ITC hotels.

In the matter of employee's benefits and compensation, your company is not far behind the industry standards and with the growth of the company it will see that the benefits and compensation packages continue to remain tailored to the industry norms enabling it to hire and retain skilled and professional manpower.

Industrial relations scenario in the company throughout the year remained cordial. The employees remained committed to higher qualitative productivity. The management too on its part played its role in maintaining and promoting harmonious relations.

ANNEXURE B TO AUDITORS' REPORT

[Referred to in Clause (f) in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors Report of even date]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **RELIABLE VENTURES (INDIA) LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in general, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were found operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company. However the same needs to be further improved and formally documented in view of the size of the company and nature of its business, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.
